

## Exploring the Shoreline

Georgia Strait Alliance

# Stewards of the Strait

## As a Savvy Shoreline User I will...

-  **Follow Marked Paths To The Beach**, rather than walking across sensitive shoreline areas.
-  **Be Careful Of Seashore Life** and avoid trampling sea-life along the shoreline.
-  **Leave Everything The Way I Found It**, including rocks, sand, shells and sticks.
-  **Handle Sea-life Gently** with wet hands and leave it where I found it.
-  **Control My Pet** and dispose of its waste properly.
-  **Respect** private property and other recreational users.
-  **Report Environmental Problems** to the proper authorities.
-  **Educate And Be A Role Model** for other beach walkers.
-  **Get Involved** in activities and issues that protect and restore marine life.
-  **Leave The Area As Clean Or Cleaner** than I found it by disposing of my garbage properly and whenever possible cleaning up garbage that I find.
-  **Reconsider Having A Beach Fire.** If I do, I'll keep it small and below the high tide level.
-  **Help Organize Or Join A Beach Clean-up Day.**

Care about the  
health of Georgia Strait?

**Make Your Pledge Today!**
