

Candidate: Craig DeCraene

Riding: City of Delta

- 1. Many communities don't know how much climate change is costing them at present, and will cost in the future. Will you commit to putting systems in place to identify and track those costs?**

Yes

- 2. Will you work to develop and implement climate adaptation plans to reduce the harm that climate change causes in your community? How will you fund climate adaptation?**

i would support the the development and implementation of a Climate adaptation plan. In Delta we have a new casino being build, would like to use some of the revenues from said Casinos to fun system.

- 3. Will you commit to protecting taxpayers by seeking to recover a fair share of climate costs from the fossil fuel companies who profit from selling products that result in greenhouse gases? Specifically, if elected, would you ask your Council to:**

- a. Send Climate Accountability letters from your community to major fossil fuel producers demanding that they pay their fair share of local climate costs caused by their activities and products?**

No Answer

- b. Press the province of BC to enact Liability for Climate-related Harms laws to give municipalities and others greater legal certainty, lower costs and timely resolutions if they sue to recover climate damages from fossil fuel companies?**

No Answer

- c. Explore legal action against fossil fuel companies to recover a share of local climate costs?**

No Answer

- 4. In your view, why is it important (or not) to hold fossil fuel companies accountable for your community's climate costs?**

I don't thing its important to hold fossil fuel companies accountable for my communities climate costs. Because there is a demand for the use of fossil fuels, these

companies still produce them. Would you also include Ford, GM and Chrysler on that too for making the Internal Combustion Engine. Its about educating the general public about better cleaner ways of transportation
